KAI

outdoor
lounger and ottoman

UPDATED JANUARY 2016

PRODUCT CARE INFORMATION

**WE STRONGLY RECOMMEND USE OF HIGH QUALITY FURNITURE
COVERS**

The Seasonal Living® Kai Outdoor Lounger & Ottoman is designed for Outdoor Use. Following the Product Care Guidelines will help to prolong the life of your outdoor furniture and help to maintain your furniture to look great all the time. This outdoor furniture collection is comprised of the following materials:

WE STRONGLY RECOMMEND YOU INVEST IN FURNITURE COVERS

A combination of a brushed, grade 304 powder coated stainless steel frame draped with Serge Ferrari's® Batyline Lounge (mesh/sling) fabric

CARE OF POWDER COATED STAINLESS STEEL FRAME

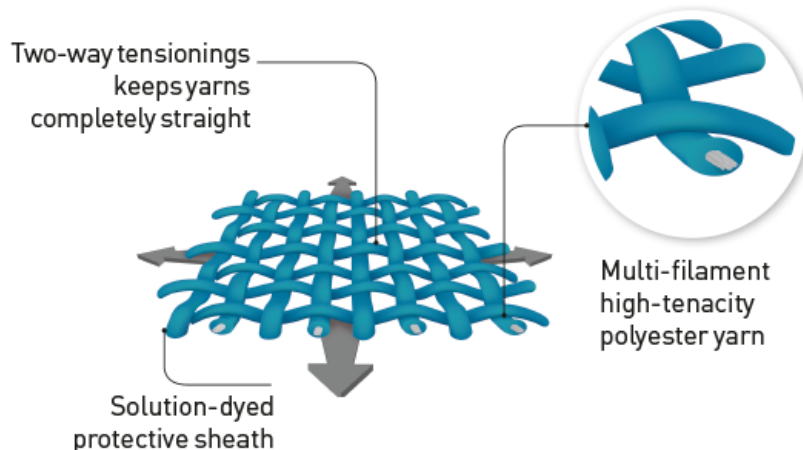

Do not damage or break the protective powder coat frame. To clean the frame, wash occasionally using a soft sponge and a mild soap. Do not use abrasive or caustic cleaners.

CARE OF SERGE FERRARI® BATYLINE® MESH FABRIC

Serge Ferrari® is a French specialist designer and manufacturing Company of composite materials for unique appearance and feel of furniture (seats and coverings) associating design, lightness and proven resistance. The Batyline Lounge fabric meets stringent international environmental standards including the highly regarded European Union (EU) **REACH** designation (**Registration, Evaluation, Authorization and Restriction of Chemicals – REACH**).

Characteristics & Features of Batyline Lounge:

Batyline Lounge creates an exciting blend of beauty and vigor to your upholstery and/or cushions, asserting its character through its 10 subtle, elegant colors. Outdoor furniture increasingly embodies an extension to indoor living spaces and Batyline Lounge composite material is unique in combining exceptional outdoor resistance with a soft, elegant, refined fabric that is so easy to live with.

Characteristics

- High-tenacity polyester yarn
- Sheath specific formulation

- Serge Ferrari patented technology
- Optimized weave opening

Advantages

- Does not tear, extremely strong
- High resistance to outdoor conditions
- Easy upkeep with soapy water or Cleaner 500
- Regular tension maintained: no bagging phenomenon
- Weave regularity, yarn squareness, guaranteed finish and aesthetics
- Original colors: offering irreproachable resistance to UV rays.
- Naturally water-repellent: guaranteeing ultra-fast drying.
- Goodbye to mold: antifungal treatment allows the furniture to “live” outside and/or surrounded by vegetation.
- Tearing strength: use of high-tenacity polyester ensures unmatched strength.
- Simplified upkeep: washing with soapy water or neutral detergent is enough.

Lightweight, sturdy and durable... at its origin, this eco-designed material integrates criteria ensuring environmental respect and 100% recyclability through the Texyloop process.

Cleaning of Batyline Lounge

To clean Batyline Lounge fabric, simply wash the mesh with a mild natural soap (such as liquid dish detergent) and fresh water. Use a soft bristle brush. Rinse and dry with a cloth, to avoid water stains on the stainless steel frames. Batyline fabrics dry very quickly because of their open structure; with care, it should have a long life.

Sagging of Batyline mesh is minimal because it has a maximum stretch of 3 percent. It also has a memory – it will slowly regain its original shape after it has been used, especially when placed out in the sun.

Avoid any sharp objects coming in contact with the material, which can be cut.

For the best Batyline care, we recommend avoiding scouring agents as well as solvents to clean and maintain the Batyline. With these simple cleaning and drying instructions, one is able to care for the Batyline product in a very short amount of time! With regular care, the product will be able to have a long life duration and will often look as new as the day you first bought it!
