PERPETUAL COLLECTION

a delicate touch

Gold captures hearts and imaginations. For thousands of years, the precious metal's beauty and rarity have been synonymous with wealth and luxury. Gold still weaves its magic, adding a touch of richness to our JOY PERPETUAL COLLECTION of accent tables. Here, less is more. Always shimmer, never shine. Infuse your space with the warmth and inner glow of JOY.

FINE CRAFTSMANSHIP

Like any excellent wine, time is everything. Each JOY accent can take 72 hours (or more) to hand apply golden JOY.

naturally one of a kind

Each JOY piece begins with Portland cement combined with sand, clean water, and premium ramie fibers as natural bonding materials. Exquisite symmetry and finesse attest to time-tested European design and hand-manufacturing techniques. Hand finishing and polishing create a Venetian-style silky touch. As the final step, artisans hand-apply multiple layers of gold lacquer until each table reflects just the right level of gleam. No two are alike—they are as distinctive as your spaces.
